

EVERYTHING IS POSSIBLE!

BUCKET SWEEPER

This hydraulically driven sweeper is specially designed for wheel loaders. Particularly efficient for cleaning large areas with lots of sand, trash, pieces of wood, and coarse grit. Ideally the machine is steered forward first to pick up larger fragments with the bucket, then reversed to sweep up the remaining bits. The bucket is easily emptied when tilted forward. Only 3rd hydraulic function required.

Replaceable brooms of polypropylene with a diameter of 900 mm.

- Replaceable bolt-on edges.
- Min/max oilflow: 55/120-220 l/min. Extra valve package for machines with high flows.

Art. No.	Working width mm	Total width mm	Motors pieces	Bucket size litres	Weight kg
62200	2000	2150	1	1800	920
62250	2500	2650	1	2700	1100
62300	3000	3150	2	3200	1400

Art. No.	Options
60020	Wateringsystem with 2x155 l tank (electricity required)
60025	Wateringsystem with 2x255 l tank (electricity required)
60015	Flowregulator 120-220 l/min
8000002	Control system for electrical valve
7800204	Steel wheels with rack and bearings
7800205	Float position adapter SBM
