

# SWEEPER

A really clean experience. Fast, front-mounted and hydraulically driven sweeper for wheelloaders and smaller load carriers. Excellent for cleaning and maintenance of streets, market places and courtyards all the year round. Cleans both small and large areas.

Counterbalanced for optimal pressure against the ground, which reduces brush wear and increases roll adherence e.g. against pavement edges.

Replaceable brooms of polypropylene with a diameter of 700 mm or 900 mm. An optional watering system is available for efficient dust control, including a tank of 255 litres, pump and flushing ramp. Requires 3rd hydraulic function and electronic control.

- Diagonal adjustment  $\pm 28^\circ$ .
- Min/max oilflow: 55/120-220 l/min. Extra valve package for machines with high flows.
- Steel brooms available as an option.

Art. No.	Working width mm	Brooms mm	Weight kg
61200700	2000	700	360
61200900	2000	900	420
61250900	2500	900	500
61300900	3000	900	600
61350900	3500	900	700

Art. No.	Options
60010	Wateringsystem with 255 l tank (electricity required)
60015	Flowregulator 120-220 l/min
8000002	Control system for electrical valve
7800203	Electrical valve for backward roll operation
